Re: **Chase Elder**

To Whom It May Concern:

Please consider this correspondence as a letter of reference for Chase Elder. Chase worked here at Dean Roofing Company and in the time he was here it quickly became apparent that he was very a capable and skilled individual. In running a business, there seem to be constant networking and system issues that pop up throughout the day. Chase was very quick to assess the problem and find the correct solution. Additionally, Chase helped us strengthen our network through the implementation of an improved backup system and as well as new email and web hosting services. Basically, in a relatively short period of time, Chase improved our network dramatically.

I wouldn't hesitate in recommending Chase Elder for any position in any firm. He is talented, dedicated and quick to learn.

Thank you,

Christopher Dean
President
